Home Page and menu section:

Meal of the day:

 **Meal Of The Day**

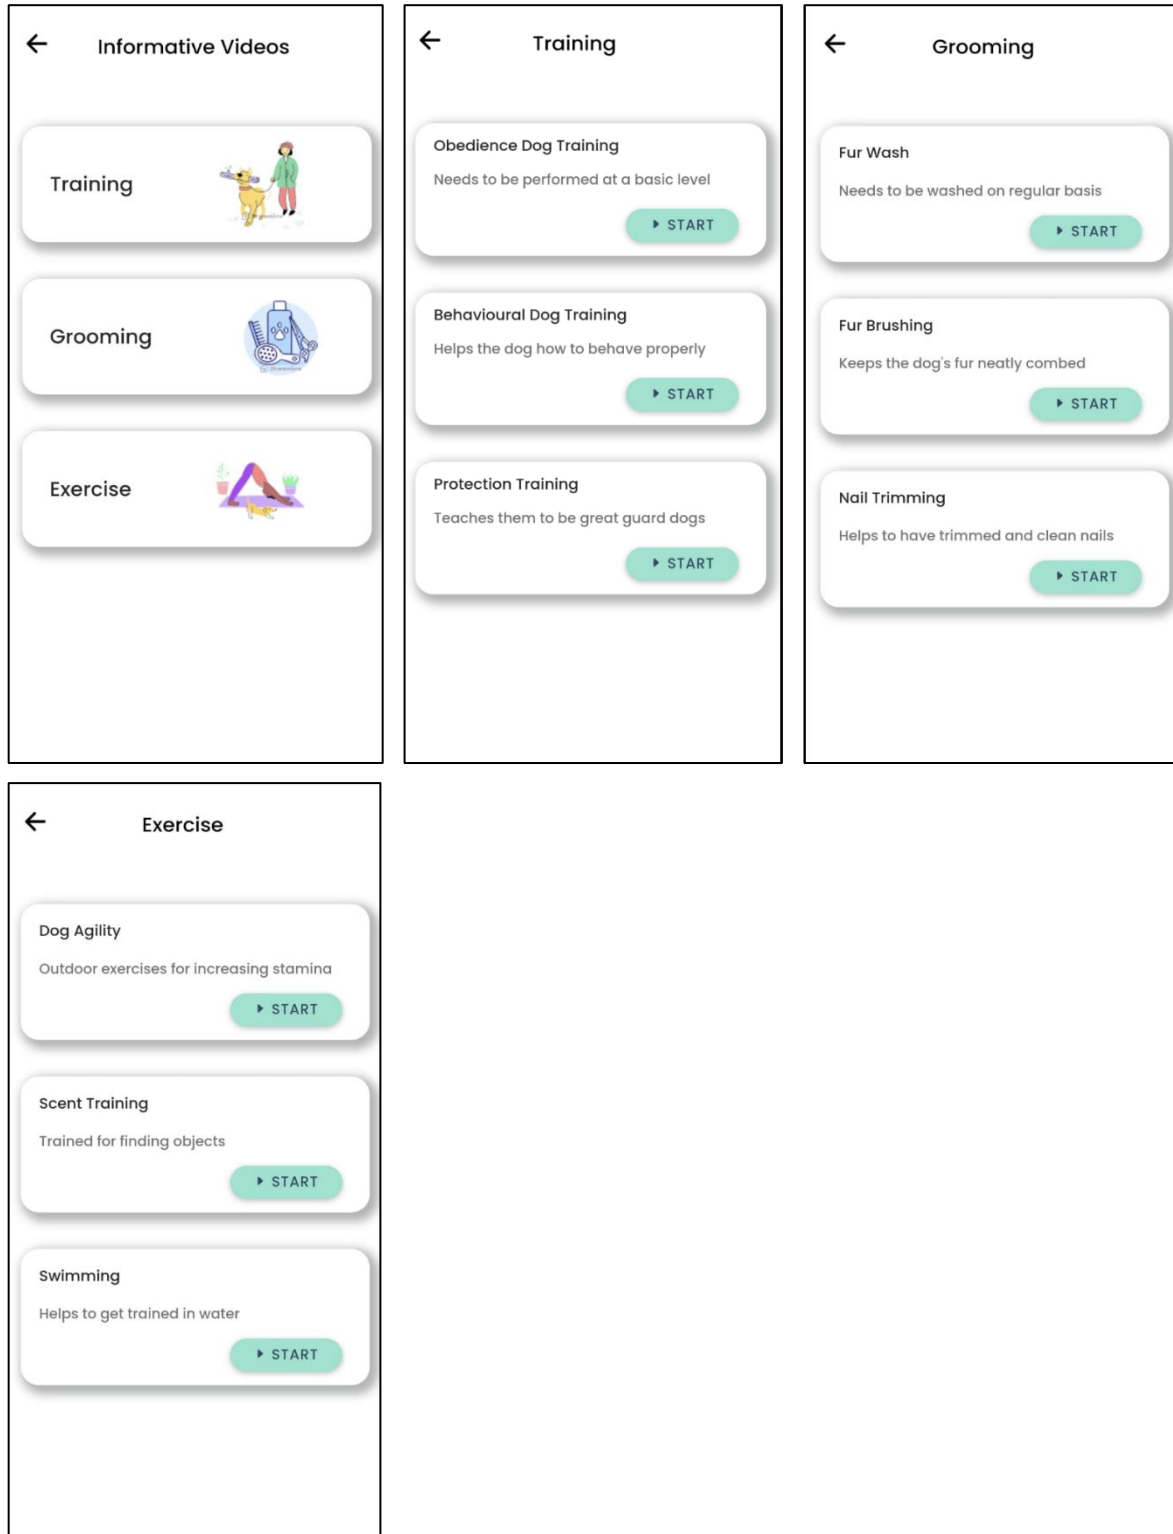

Green Peas

Green peas are packed with vitamins, including A, B1, B6, C, and K. Vitamin K can improve bone health. Peas are also high in lutein, an antioxidant nutrient that supports eye, skin, and heart health.

Green peas are an excellent source of essential vitamins, minerals, and dietary fiber for our canine companions. This protein-rich legume boosts energy levels in dogs and is gentle on the digestive system. High-fiber foods can also help dogs maintain a healthy weight and lower cholesterol.
